Darco APB™ All Purpose Boot and Surgical Shoe

The DARCO APB™ embodies nearly perfect 4 season postoperative protection with a closed-toe design that keeps dressings and toes warm and dry.

FEATURES

- Black breathable fabric upper
- Includes two removable inner soles (EVA)
- Ankle strap seats foot firmly in shoe
- Top layer of shoe is lightweight, non-toxic, odorless, nonabsorbent, washable, and able to be disinfected
- Accommodates both bulky dressings and most fiberglass casts
- Hook & loop closures
- Tongue attached and breathable upper
- Rocker bottom sole with good plantar traction
- Universal - fits both right and left sides

INDICATIONS

- Post Surgical healing
- Foot/Ankle trauma
- Unna Boots, casts and other bulky dressings
- Wounds or ulcerations present under metatarsal heads and toes

DARCO
