

Aspen Vista™ Cervical Collar

CODE L0172 APPROVED

The fully adjustable Aspen Vista Cervical Collar helps improve patient care while saving time, money and storage space. Built on the design of the trusted Aspen Cervical Collar, the Vista Collar provides motion restriction¹ while helping to protect against skin breakdown. With its patented height adjustment technology, the right size is always on hand.

Award-Winning Cervical Care

The unique and innovative design of the Vista Collar earned both the prestigious *SPINE TECHNOLOGY AWARD* for Best New Technology in Cervical Care and the TechAmerica *TERMAN AWARD* for the best Medical Device. Aspen is proud to have won these awards and to be the cervical orthosis of choice in the majority of Trauma Centers across North America, working together to provide superior patient care and improved outcomes.

TechAmerica

1. Comparative Motion Allowed, Vista vs. Aspen, Aspen Medical Products in-house testing, December 2006.

Aspen Acute Restriction Braces Provide a Controlled Environment for Healing

Aspen Acute Restriction braces provide significant motion restriction by acting as a kinematic restrictor², for patients needing support for healing, and can be safely and quickly applied. Gross motion restriction is often desired in treating injured patients recovering from trauma or surgery³. The goal is to support healing⁴, limit recovery time and save money by expediting patient discharge times, accelerating turnaround times and minimizing health risks.
