COMPANY OVERVIEW

Frontline Medical Services is a CVE certified Service-Disabled Veteran-Owned Small Business (SDVOSB). A national wholesale distributor of Durable Medical Equipment (DME), our company provides high-quality prosthetic, orthotic, orthopedic, sports medicine, laboratory, hospital and surgical products.

Frontline currently performs two contracts with the VA Denver Logistics Center (DLC) and a GSA/FSS contract which total over \$40 million dollars. Additionally, we continue assisting the VA, DoD, HHS (IHS), DHS and other federal agencies to meet the on-going needs of our veterans, active duty military members, Native Americans, and government healthcare providers nationwide.

MISSION STATEMENT

Our mission is to provide the VA, active duty military, and government healthcare systems with quality products, innovative technology, competitive pricing, timely delivery and professional service. Our team's driving passion is to improve the quality of life of our military service members - past, present and future.

GUIDING PRINCIPLES

The simple guiding principle at Frontline is to always do the right thing. Our company operates with honesty, integrity, loyalty, commitment and professionalism.

SDVOSB - SBA SMALL BUSINESS
